PROJECT

Project Title

Patient Health Monitoring By Using GSM.

Project Description

The GSM based Patient health monitoring system works with GSM modem to send the data remotely to the registered phone number. It allows doctors or relatives of patient to check the status of patient health remotely.

CHATBOT

I created the chatbot by using HTML that stimulates human-like conversions with users via text messages on chat by generating responses by using a common phrases obtained from an associated library or database.

ACHIEVEMENTS

A grade certificate in National Cadet Corps (NCC)
2nd prize in Quality Quiz at Apollo Tyres Ltd.
